4586 Sparklescent Real Teal		X														
4587 Sparklescent Nightmare Blue	X					X								X		
4588 Sparklescent Fine Wine	X								X			X				

* This chart features unusual, color-keyed blends. Standard base-coat/ mid-coat blends such as 4524 Cosmic Blue over a base of 4308 Pearlized Blue are not listed although they make a great finish.

* 4501 Hot Rod Sparkle White is a transparent pearl-flake and keys well with any base color. Use over 4301 Pearlized White, 4330 & 4331 Metallic White colors for a metal-flake like white.

* 4400 Series Gem Color-Shift Colors over a base of 4500 Series Sparklescent Colors are true ghost blends where the Gem will not be visible on the side-cast.
